CLASSICAL & CRYSTAL CHANDELIERS

It is hard to find a better fulfillment of an elegant interior than a metal chandelier with crystals gently diffusing light.

The lighting frames made of crystal often get across as very prestigious, but beads reflecting light don't have to be a decoration exclusive for overly elegant, stylish spaces. Crystal additions are accessories often reminding refined spaces or chambers bringing to mind the palaces of Versailles, in which the dominant role plays a great chandelier placed in the very center.

Crystal details combined with modern elements are also a way of making our interior more fashionable and dignified. Lamps with little crystals kept in a classical, romantic spirit are a proposition for both traditional, as well as modern looking interiors.
